### Extra Special Prices on White Linens

Linens Are Going to be Much Higher

About three-fourths of the raw flax that linens are made of comes from Russia and Belgium, Ireland, France and Germany are the three countries where linens are manufactured—These countries being at war there is very little flax being gathered and all the factories are either closed down or running on short time. These facts have caused a big advance in all linens and made them very scarce. However this store looks after your interest and by buying at the right time saves you the advance in prices. Thus we can offer you pure linens during this sale at prices no higher than they were a year ago—But you better buy now—they will be higher.
